THE EDITOR OF HARPER'S WEEKLY, referring to their picture of THE SCOUT, says: "No feature connected with our military operations is so interesting or so abundant in this paper as what is called the secret service." This has been especially the case in the West, where the details of this service have been hidden from the public. It was necessary that they should be, both for the success of important movements and for the sake of the gallant heroes engaged in this branch of the service. This veil of secrecy has been removed by the author, who gives full account of the war—incidents, the events which determine the fate of battles has hung. These will sometime be made known, and will form an interesting portion of the history of this war, reliving the bold deeds of marches and maneuvers."

THE STORY OF THE THREE SCOUTS.

For the author of "Garden's Castle," "Noblesse," &c., is intensely interesting. It is pronounced by the highest authority THE BEST STORY OF THE WAR, and will be read and valued long after most Books of the present war are forgotten. Two of THE SCOUTS are old acquaintances, and will all be well known to them.

"It is said to be true that this is the book in fiction for the civil war. In other years it may become the standard novel relating to this winter period."—New-York Leader.
